

Nigel Mills M.P.

HOUSE OF COMMONS

LONDON SW1A 0AA

Councillor Richard Robinson,
Broxtowe Borough Council,
Foster Avenue,
Beeston,
Nottinghamshire,
NG9 1AB

8th February 2019

Langley Mill Transport Hub.

Dear Councillor Robinson,

I am writing to express my support for investment in transport services and infrastructure upgrades in Langley Mill, which would improve connectivity and promote investment into the local area. An investment such as this would help to address the needs of the growing population in the Langley Mill and Heanor area.

Currently there is only an hourly train service to Nottingham from Langley Mill and no direct train links to Derby. Trent Barton is the only bus service provider who run the services linking Ripley, Codnor and Heanor to Nottingham.

A Super Transport Hub at Langley Mill would address the real need for increased connectivity in the local area. It would bring benefits for the employment and education sectors as well as increasing leisure opportunities.

There will be a significant population increase in the Borough of Amber Valley due to an estimated 11,000 additional homes, planned to be built by 2028. It is crucial therefore that the infrastructure is also provided to support this increase. Many constituents have already raised concerns about high levels of congestion at peak times in the Langley Mill and surrounding area. This is particularly bad from along the A610 from Ripley into Langley Mill and as the A610 crosses the M1.

Infrastructure investments in the East Midlands are vital to help boost prosperity, especially in areas that have been overlooked in the past. A Super Transport Hub which could facilitate a new train station, tram links to Nottingham and updated bus capabilities would be a great benefit to the surrounding areas and has my support.

Yours sincerely,

A handwritten signature in blue ink that reads "Nigel Mills".
